On path of friendship

We must also understand that China has, more than once, been challenging to the world. China's behavior towards us has been unpredictable. China has lost for atheist China.

We must also understand that China has, more than once, been challenging to the world. India's stand in Kashmir. China has not outright condemned India's stand in Kashmir. China has not outright condemned India's stand in Kashmir. China has not outright condemned India's stand in Kashmir. China has not outright condemned India's stand in Kashmir. China has not outright condemned India's stand in Kashmir. China has not outright condemned India's stand in Kashmir. China has not outright condemned India's stand in Kashmir.

A commendable job was done by the Indian Red Cross Society in the country. The theme for the Red Cross Day this year was "Red Cross: Symbol of Service". The Red Cross has a significant role in the prevention and control of Thalassemia.

The Red Cross Society has done a monumental work in the field of Thalassemia. The Red Cross Society has been providing regular blood transfusions to Thalassemia patients.
