Another Army jawan martyred, 2 injured in ceasefire violations

A BSF jawan was martyred in Samba sector. A couple of soldiers have sustained injuries. However, casualties and damage were very heavy on Pakistan side. Nearly 15 Pakistani army personnel have been eliminated while about a dozen others were injured in retaliatory action undertaken by the Indian troops. More than a dozen Pakistani posts and bunkers have been razed to ground in retaliation.

The BSF had also retaliated very effectively after one of its jawans was martyred in Samba sector few days back, killing and injuring a number of Pakistani Rangers.

Meanwhile, a 12-year-old boy was today critically injured when an unexploded bomb went off near the LoC in Shahpur sector of Poonch district this morning.

Mohammad Iqbal (12), son of Mohammad Rashid, a resident of Shahpur, found the bomb in an open field near Qasba village around 11:45 am and started fiddling with it, causing the explosion. "The boy suffered critical injuries with both his hands blown up. He was rushed to hospital and his condition is stated to be 'critical'," sources said, adding the mortar shell had been fired by Pakistani troops during ceasefire violation.

The bomb had remained unexploded and undetected, sources said, adding that the boy was playing in the field when he came across the bomb.

Injured boy has been admitted in the hospital in critical condition. An Army jawan Pushkar Singh was injured in forward village of Malti in Poonch.

Sources said fresh tensions on the LoC have spread wave of fear and panic among the people living in villages located within shelling and firing range in twin border districts of Poonch and Rajouri.

The panic-stricken people were taking extreme precautions while venturing out of their houses as they feel that frustrated Pakistan army, which has suffered heavy losses at the hands of Indian troops, could target the civilians to inflict casualties and damages on them.

"We are frightened. Though Pakistan army has been targeting civilian areas not quite often as they did during second half of 2017, the people are panicky as they feel the Pakistani troops could open firing on civilians in frustration. Therefore, we demand construction of bunkers as early as possible," they said.

Govt not interested in empowering SVO, augmentation proposal gathering dust

2015. "However, the augmentation proposal is still pending consideration with the Government", the Vigilance Commission said in its annual report. This indicates that the tall claims of the Government about initiating requisite steps to eradicate the menace of corruption are confined to the statements only.

According to the report, a recommendation was also made for the Law Department to take up the matter with the High Court so that proper calendar for conducting trial of corruption cases on regular basis is devised for implementation by the Additional Special Courts and suitable accommodation for safe and secure custody of case records and case property is made available in each such court to the State Vigilance Organization.

"Though this would have helped in speedy disposal of under-trial corruption cases yet the recommendation has not been taken seriously till date", the report further said.

On the basis of experience derived in its day to day proceedings, the State Vigilance Commission also felt the need to have the J&K State Vigilance Commission Act, 2011 amended so as to make certain matters clear and unambiguous, which would in turn enable the SVC to discharge the functions entrusted to it by the Act itself more effectively and lead to result oriented and expeditious disposal of inquiries.

Accordingly, a detailed communication No.SVC/Gen/23/2015 dated June 5, 2015 containing the proposed amendments along with draft Amendment Act was sent to the General Administration Department. However, despite lapse of nearly three years the proposal has not been taken seriously by the GAD thereby putting a question mark on the intentions of the Government about bringing improvement in the vigilance administration.

"The amendment has been proposed in Clause-D of Sub-Section-1 of Section 8 of the Act which would enable the Commission to play a proactive role in curbing the menace of corruption by empowering it to take cognizance of the acts of corruption, malpractices and abuse of official position which come to its notice without waiting for formal complaints", the report said.

The Commission had also proposed insertion of Sub-Section-2 to Section-11 regarding the procedure to be adopted for compelling the attendance of persons to whom summons are issued by the Commission.

"This amendment was proposed because in the existing Act though powers under Code of Civil Procedure have been conferred upon the SVC but there is no specific provision in the Act which could be resorted to for ensuring timely submission of documents and reports in compliance to the directions of the Commission", the annual report said, adding "non availability of any such provision results in delayed submission of documents and reports".

According to the report, the Commission had also recommended insertion of Section 24 in the Act which would provide for penalty for contravention of directions issued by the Commission. "This amendment was proposed to ensure that the orders of the Commission at all levels in the administration are taken seriously so that the basic objective behind creation of the Commission is achieved and the efforts of the Government to provide clean and corruption free governance is supplemented", the report added.

5 bodies found in Pawan Hans crash

Deputy General Managers, went missing around 10.40 hours today.

ONGC, Coast Guard and Navy pressed helicopters and speed boats as soon as the information of the chopper going missing was received at the Juhu helibase.

ONGC has key oil and gas fields off the Mumbai coast and Pawan Hans helicopters routinely ferry company employees and officers to the oil installations that are situated as far as 160 kilometres from the coastline.

The field in the offshore include Mumbai High, the nation's largest oil field and Bassein fields, the largest gas field.

The helicopter crash is not the first accident in ONGC's history. In August 2003, an Mi-172 helicopter crashed off the Mumbai coast killing 27 people and pilot on-board.

An ONGC official said Oil Minister Dharmendra Pradhan visited the bereaved families in the city this evening.

Of the five senior officials that the ONGC lost in the accident, two were living in Bandra Colony, one in Kalina, one in Vasai and one in Delhi, he said.

However, the ONGC refused to name the officials saying that all the bodies are yet to be identified by their families and two more bodies are yet to be recovered.

The bodies recovered so far have been sent to Cooper Hospital for post-mortem, the official added.

A senior Directorate General of Civil Aviation (DGCA) official said the aircraft accident investigation body AAIB will probe the Pawan Hans chopper crash.

"Since it is a clear accident, this chopper crash will be probed by the Aircraft Accident Investigation Bureau (AAIB)," the official said.

He said the DGCA will extend all the necessary help to the AAIB in conducting the probe.

AAIB is the apex body which probes serious incidents and accidents, involving aircraft registered in India and comes under the civil aviation ministry.

Pawan Hans Ltd said in a statement that the French-made Dauphin SA 365N3 helicopter met with an accident and the chopper crash is being probed by the aviation regulation DGCA.

"There were five passengers and two crew members on board. The search and rescue operations are in progress," it said.

Minister of State for Civil Aviation Jayant Sinha expressed deep anguish over the loss of lives.

"IndiaCoastGuard Ship on receipt of information reached area, located the debris, picked up a body at 1230 hrs," he said on Twitter.

"So far resulted in 03 body recovery. Search & rescue operations are underway. Aircraft Accident Investigation Bureau will launch thorough inquiry," he tweeted. (PTI)

"At about 1120 Hrs on 13 January, Headquarters, Coast Guard Region (W) received information from ONGC about a helicopter with seven persons (two pilots and five passengers) missing in position about 22 Nm North West from Uttan Light (16-17 Nm from land). The location falls in the approach/return leg of route taken by ONGC helicopters while proceeding to oil rigs in Mumbai high area," it added.

"A Dornier aircraft was immediately launched from Coast Guard Air Station Daman and reached the area for search. Certain debris was reported by the aircraft. Further, Indian Coast Guard Ship (ICGS) Agrim, on patrolling off Mumbai was diverted to the crash site and reached the datum at about 1230 hrs.

"The ship also reported widespread debris in the area and began search for the missing passengers and crew from aircraft," it added.

Four more Coast Guard ships based at Mumbai (ICGS Samudra Prahari, ICGS Achook, ICGS C-154 and ICGS C-434) apart from ICGS Agrim were pressed into service and reached the datum to widen the search parameter.

Besides, another two Dornier aircraft were deployed from Coast Guard Air Station Daman to augment the search effort, it added.

A release from the Navy said, "The naval ships have recovered pieces of debris of the ill-fated helicopter and continue the search for two missing crew members. Five bodies have been recovered so far."

The Navy said the two Fast Interceptor Crafts, INS Tarasa and the frigate INS Teg of the Indian Navy joined the rescue effort with diving teams and a Chetak helicopter operating on board INS Teg joined the operation.

"Identification of the bodies is in progress," it read.

The chopper Dauphin N3 went missing after taking off from the Juhu aerodrome.

The chopper, bearing registration number VT-PWA, was scheduled to land at the designated oil rig at Mumbai High at 11 am.

In a statement, the Coast Guard said, "Search teams from ICGS Agrim were able to locate and recover five bodies from water. The floating debris was also recovered by the ship."

The search operation for the remaining crew is continuing in coordination with other ships and aircraft from ONGC and the Indian Navy. The recovered bodies along with debris have been handed over to ONGC vessel at the crash site for further formalities, it said.

"Whatever differences the Judges have regarding the roster allocation of cases, should be resolved through an in-house mechanism, without airing views in public," Mishra said.

He added that the BCI welcomed the Government's decision not to get involved in the internal matters of the top court.

"The Law Minister has already said that the Government will not interfere in the matter. The bar welcomes the decision," Mishra said, adding that as for the Memorandum of Procedure for the appointment of Judges to the higher courts, "it must be finalised at the earliest".

He said all these issues had to be sorted out through an in-house mechanism and that the matter should not be politicised.

In an unprecedented move, four senior Supreme Court Judges - Justices J Chelameswar, Ranjan Gogoi, M B Lokur and Kurian Joseph - had mounted a virtual revolt against CJI Dipak Misra at a press meet in Delhi yesterday, raising questions on "selective" case allocation and certain judicial orders, sending shockwaves across the judiciary and polity.

Meanwhile, the Supreme Court Bar Association (SCBA) today expressed "grave concern"

over the differences of four senior-most Judges with Chief Justice of India (CJI) Dipak Misra and said the issue should be immediately considered by the full court of the Apex Court.

The SCBA executive committee, which held an emergency meeting, resolved that all public interest litigation (PIL) matters, including the pending PILs, should be either taken up by the CJI or be assigned for adjudication to four senior Judges who were part of the Apex Court collegium.

SCBA President and senior advocate Vikas Singh said that a resolution for the full court consideration was passed as it is a mechanism in which deliberations by all the judges of the top court takes place in-house and not in the open.

The SCBA resolution said that matters listed for hearing in the Apex Court on January 15 "should also be transferred" from other judges to the five senior-most judges who were part of the collegium.

"The differences that have been reported in the press conference by the four senior judges of the Supreme Court and the other differences which are reflected in the newspapers are of grave concern and should be immediately considered by the full court of the Supreme Court," Singh said while reading out the resolution.

"It is further unanimously resolved by the executive committee of the Supreme Court Bar Association that all PIL matters including the pending PIL matters should be either taken up by the Chief Justice of India, or if he has to assign to any other bench, it should be assigned to the Judges in the collegium. Even the matters listed on Monday i.e. January 15, 2018, should also be transferred as per our request," it said.

The SCBA president, who addressed the media after coming out of an over-hour-long closed-door meeting of the executive committee, however, did not comment on whether the senior judges should have gone public with their grievances.

Singh said that if required, the SCBA would seek an appointment with the CJI and other judges to talk about the developments which were a matter of grave concern. (PTI)

Major tragedy averted; IED detected, defused

to their near cricket ground Lal Bazar. However, security forces have intensified searches against them.

And in the meantime, authorities imposed restrictions in parts of Srinagar to maintain law and order in view of a strike called by separatists against the death of a civilian allegedly in security forces firing during this week.

Restrictions were imposed in seven police station areas of Srinagar under Section 144 CrPc. They were imposed in Nowhatta, M R Gunj, Rainawari, Khanayar and Safakadal Police Station areas of the city and parts of Kralkhud and Maisuma Police Station areas.

The curbs have been imposed as a precautionary measure to maintain law and order and to avoid any untoward incident.

The separatists have called for the strike today in the wake of death of a civilian in Khudwani area of Kulgam district on Tuesday. Khalid Dar, 20, was killed allegedly in firing by security forces on protesters in Khudwani after an encounter in which a local Hizbul Mujahideen militant was killed.

Meanwhile, normal life was affected elsewhere in the Kashmir valley due to the strike. Most of the shops, private offices, petrol stations and other business establishments were shut, while public transport was off the roads.

However, private cars, cabs and auto-rickshaws were seen plying in many areas where there were no restrictions.

However, private cars, cabs and auto-rickshaws were seen plying in many areas where there were no restrictions.

Kashmir under grip of cold wave, temps dip

cold conditions, which have also led to freezing of water supply pipes in many areas causing difficulties to the residents.

People in the Valley are also facing problems in these extreme climatic conditions on the electricity supply front as well. There are frequent power outages lasting a minimum of six hours in city areas and 18 hours in rural areas. The power crisis has worsened due to continuous dry weather conditions.

Kashmir is now under the grip of 'Chillai-Kalan' a 40-day harshest period of winter. It ends on January 31, but the cold wave continues even after that in the Valley.

The MeT office said the weather is likely to remain dry till January 17 which will lead to further dip in night temperatures.

Bar Council cautions parties, leaders

The reference to political parties and leaders assumes significance as Congress president Rahul Gandhi had yesterday addressed the media after the Judges went public with their grievances.

"I think the points raised by the four Judges are extremely important. They have mentioned that there is a threat to democracy. It needs to be looked into carefully," Gandhi had said.

At an emergency meeting called by the BCI's governing body, comprising 17 members, a resolution was passed, saying a seven-member committee would meet all the Apex Court Judges tomorrow (January 14), barring the five senior-most Judges, to discuss the present crisis.

However, Mishra subsequently clarified that the members of the committee would also meet the four Judges and, in the end, the CJI.

The BCI said it was of the view that such issues should not be made public.

"Whatever differences the Judges have regarding the roster allocation of cases, should be resolved through an in-house mechanism, without airing views in public," Mishra said.

He added that the BCI welcomed the Government's decision not to get involved in the internal matters of the top court.

"The Law Minister has already said that the Government will not interfere in the matter. The bar welcomes the decision," Mishra said, adding that as for the Memorandum of Procedure for the appointment of Judges to the higher courts, "it must be finalised at the earliest".

He said all these issues had to be sorted out through an in-house mechanism and that the matter should not be politicised.

In an unprecedented move, four senior Supreme Court Judges - Justices J Chelameswar, Ranjan Gogoi, M B Lokur and Kurian Joseph - had mounted a virtual revolt against CJI Dipak Misra at a press meet in Delhi yesterday, raising questions on "selective" case allocation and certain judicial orders, sending shockwaves across the judiciary and polity.
