

## From page 1

## No headway in promoting world famous Basohli art

Ch Lal Singh who also remained Minister in Mufti Cabinet from 2002 to 2004 and later again in Mufti and Mehbooba Mufti Governments from 2015 to 2018, is closely linked to Basohli Assembly segment and people of the constituency.

Despite having a proximity to inhabitants of Basohli Assembly segment, people have very high expectations from him also. However satisfying ever one is not humanly possible and some sections of people have grievances against former MLA saying that though they remained solidly behind him but some of their problems have not been solved as yet.

The main issue raised by the cross section of people in this Assembly segment is that though Basohli is known world over for its Pashmina Shawls and painting from centuries together, no headway has been made till date for the promotion of the same. Despite construction of Atal Sethu after which the distance of the area was decreased to neighboring States, the Basohli handicrafts and painting failed to get the boost and attention the level it deserved. This is the general complaint of the people of the town and adjoining areas.

Even the artists from the area and artisans who are dealing in the world famous Basohli Pashmina also decry the role of the successive Governments for their failure in boosting the Basohli Pashmina trade and paintings. The artists said that they had lot of expectations from the previous Government but it too could not come to their expectations the level they desired.

This art is completely dying now as no one takes interest in boosting and encouraging the younger generation to continue the tradition. The former MLA tried his level best to get due place for the Basohli art and paintings but he could not get the support from the Government which did not show any interest for the same.

Sohan Singh Baloria, a well known artist from Basohli said that the Basohli shawl and paintings are surviving till date with the efforts of artists and artisans as well as some NGOs otherwise it would have completely vanished.

The Government had made many promises but could not do anything in this regard, he said.

## DISCLAIMER

"Daily Excelsior" does not take responsibility for the contents of the advertisements (Display/ Classified) carried in this newspaper. The paper does not endorse the same. Readers are requested to verify the contents on their own before acting there upon."

They had promised to promote the Basohli art and paintings to give due place to it in the world but nothing concrete was done in this regard till date, he added.

Lal Singh represented the constituency thrice as MLA and twice as MP and he too could not do any worthwhile for promotion of Basohli art and paintings in the national and international markets due to lack of support at Government level, he said.

Baloria said during elections the contesting candidates make promises and later fail to deliver on ground. Except befooling the people they do nothing for their betterment and development of area.

The area has a lot of potential for tourism as well and its chances increased after the construction of Ranjit Sagar Dam at Basohli some years back. But failure of Government to boost the tourism trade in the area has also led to pessimism among the people of the constituency.

Had the Government paid attention towards this problem and the local representatives been able to take up the issue forcefully before the Government, the Basohli would have been far advance and developed township of Jammu region, said Darshan Lal a resident of Basohli town.

He said no training school was opened in Basohli for imparting training to youth in weaving of Basohli Pashmina Shawl and promotion of paintings though it was a long pending demand of the people of the area.

Though people also admitted that this time the MLA did not get the much time to solve the burning issues as Government fell before completion of even three years, but during previous years no effective steps were taken in this regard also.

Inderjit Singh of Plahi village, which is two kms away from Basohli said that had it been Kashmir, Basohli would have been on top of tourist map and fully developed but here no proper infrastructure has been created for tourists.

He said that 800 people of the area who were given jobs as per the agreement while construction of Thane Dam as their land was acquired by the Project are still running from pillar to post for the same as no body listens to them. The public representative also could not take up this issue forcefully to grant justice to them. Moreover, many families are without compensation of the land which was taken by the project, he added.

Even nothing was done to boost the morale of artists participating in 110 year old Basohli Ramlala for its revival which has its unique place in the Jammu region, Singh added.

Eight MW Hut Mashika Micro Hydel Power project is

defunct for over a decade now and no steps were taken to restore it, said Inderjit Singh.

He said Hatmakshika road remained closed in Monsoons as water overflows road. There are also no proper transport facilities in the area.

He said Jano-Sailaf road has not been constructed while the work is going at snail's pace on Dhar Mahanpur road.

The Basohli could have been converted to mini Goa after construction of dam but no attention has been paid to it.

Sumesh Kumar, a resident of Basohli said that Government failed to fulfill the norms for declaring Basohli a heritage town and no attention was paid to soil wastage management of the town. Moreover Rs one crore was sanctioned for Solid Waste Management project but no body knows where it was spent.

He said Basohli Development Authority was created and Rs 400 crore allocated to it. The name plate was also installed and Rs 100 crore for the same was released by the Government but no one knows where the same was utilized.

Moreover, SDM Basohli was shifted and ADC post was created but he is without powers and without staff. "What was the fun of creating the post without powers and staff? The people are suffering on account of the same", he said.

Kalu Ram of Nagrota Preta said a proposal was mooted to run boats in the dam to promote tourism. Four boats were purchased and among them three were big to carry 25 passengers each while one was small. Tenders were invited but no headway was made in it and all boats are lying idle. This is total wastage of public exchequer's money, he added.

Even the people of Lakhampur too have many grievances. Jeet Raj, a local resident said, that underground drain as demanded by the shopkeepers and people has not been constructed and no work is being done by Municipal Committee Lakhampur as well. Vijay Kumar of Jandor, Basohli while acknowledging the work of MLA said he has no grievances against him as some developmental works had taken place in the area. However he said people resent the failure of Government to accept their demand to have small station of train in the area and construction of flyover on railway track was not conceded as people have to wait for long time when train crosses the track and this way their time gets wasted.

The residents of Karoh Basohli too have many grievances. According to Karnail Singh, Lambardar the plates were laid for MGNREGA works but not executed later. The people also faced water scarcity and no

attention has been paid to solve the problem in the area and surrounding villages.

However, same are not views of people every where Ram Kumar of Haripur showered all praises for the ex-MLA saying he is dynamic and bold leader. He is true to his words and has brought many projects in the constituency. There is better road link now and for tourism promotion, many steps were taken by him.

Basohli got a new Hospital building besides steps are afoot to bring the Basohli on tourism map. The ex-MLA has taken many steps in this regard also, he said.

Ismail Gujjar of Basohli said that he as well his fellow community members in the area are satisfied with the functioning of Lal Singh. He is a pro poor leader and true to his words. Every body has access to him and he listens their problems keenly.

He constructed classrooms in schools, roads in various areas and ensured good quality of work. He was prompt in checking the attendance of officials in Government offices and no body dared to remain absent during his tenure as MLA or create problems to people visiting the Government offices for any work.

The ex-MLA had such a reputation that if a client in any Government office tells that he has been asked by Lal Singh to meet the officer, he would not take five minutes in settling the case, said Ismail.

People in Mahanpur area too lavished praises on the former MLA saying that they are satisfied with his performance in short span of time. The good road net work in the constituency speaks his performance for which he deserves all praises, said Ramesh Kumar a local shopkeeper.

Raman Singh also of Mahanpur said that the ex-MLA took keen interest in development of the constituency and deserves credit for bringing the solar light project to Basohli.

However, when contacted for his comments on his three years performance as MLA, Choudhary Lal Singh said that the area of his responsibilities has increased tremendously now and he has come out of a constituency to safeguard the rights of the people in entire Jammu region which faced constant neglected and discrimination over the years.

He said he has started a mission to end this discrimination and his responsibilities have been shifted from a particular Assembly segment to entire Jammu region now.

The former Minister said he is awfully busy these days and just now he has attended a meeting to devise the strategy for future course of action regarding his new mission.

## Lakhs of people in snow-bound Doda,

## Kishtwar suffering badly for past 4 days

evening", adding "for restoration of damages to seven towers between Doda-Kishtwar the NHPC has given tentative time-frame of 3-4 days".

All this clearly indicates that lakhs of people of twin mountainous districts will continue to suffer for some more days. As per the reports, the situation is worst for the people of those areas of these districts which have experienced heavy snow.

"Even communication link of vast areas of these districts with rest of the State has suffered badly as in the absence of power supply even the land-line telephone exchanges are not functioning properly and people are finding it difficult to recharge the batteries of their cellular phones", reports said.

"Cellular companies are keeping their network in functional mode by operating their towers, which run on diesel-operated generators, but people can avail the cellular services only when batteries of their mobile phones are charged, which is not possible due to complete darkness in these districts", reports further said.

Notwithstanding the immense difficulties being faced by the people of these two districts, neither any decision has been taken on taking over of Udhampur-Kishtwar transmission line by the Power Development Department as desired by the NHPC from time to time nor work could be restarted on the alternate Batote-Thathri-Kishtwar transmission line, whose fate is hanging in balance during the past several years.

The 132 KV single circuit Udhampur-Kishtwar transmission line was constructed by NHPC during eighties in order to meet the electricity requirement in the construction of Dulhasti Hydroelectric Project in Kishtwar. Since the commissioning of the project most of the power transmitted through

this line is being consumed in Doda and Kishtwar districts.

Since 2014 the NHPC has dashed numerous communications to the State Government with the request to take over this line especially when tariff for the power being supplied through this line and consumed by the people in both the districts is being charged by the State Government.

On August 23, 2018 NHPC Chief Engineer for Dul Hasti Project Yoginder Kotha had once again written to the State Government mentioning the urgency for taking over of this line by the JKPPD. "Head office of NHPC was not allowing deployment of manpower/maintenance expenditure for this line which may result into decrease in the reliability of the line in the coming time resulting into disruption of the power supply to Doda and Kishtwar districts", he had explicitly mentioned in the communication.

However, till date no decision has been taken by the State Government. "As of now we have not decided to take over the line", said Commissioner Secretary to Government Power Development Department Hirdesh Kumar Singh. However, he failed to specify the reasons for the same.

About alternate Batote-Thathri-Kishtwar transmission line, he said, "the fate of the project is hanging in balance as the project executing company has gone in the arbitration against the decision of Finance Department, which had refused to permit cost escalation projected by the company".

"We are trying to convince the arbitrator to allow us to restart the work on the abandoned line so that power supply related issue of Doda and Kishtwar districts is resolved once and for all", he said.

However, when this development takes place remains a million dollar question.

## I'm CM also, I've to keep view

## point of my Govt too: Govt

leaders and NC vice president and former Chief Minister Omar Abdullah had charged the Governor with indulging in politics.

The Governor called for giving good quality education to the youth saying only education can empower the youth.

## 5 militants killed in Kulgam gun battle

of medico-legal formalities. At least 10 people were injured as security forces fired pellets on protesters after clashes broke near a gunfight site in South Kashmir's Kulgam district today.

About dozen persons were injured during the clashes with 10 among them hit by pellets as protesters targeted the security forces with snow balls to disrupt the operation.

Eleven persons including 7 police personnel men were injured in a grenade attack on police in Srinagar City Centre this evening.

Four policemen, three Central Reserve Police Force personnel including an Assistant Sub Inspector (ASI) and four civilians were injured after militants hurled a grenade at the CRPF camp at Palladium cinema in Lal Chowk this evening.

The grenade was hurled at around 6.40 p.m. at 132 battalion of CRPF stationed at Palladium cinema in Lal Chowk.

## NH remains blocked

IGP Traffic, J&K, Alok Kumar told the Excelsior that at around 2.30 pm today, the last landslides at Marog was cleared by the National Highway authorities and from Ramban side, the movement of oil and LPG tankers was allowed towards Kashmir. But hardly within 30 minutes, another major land slide struck the highway at Marog again, before these vehicles could arrive at this sliding zone. A major possible tragedy was averted. About 150-200 mt wider road stretch was extensively damaged in the fresh landslide, he added.

Kumar said the machines were again pressed into service but clearance work was stalled after evening. Shooting stones continued to pose risk to the lives of the machines operators. Shooting stones at Panthyal, Anokhi fall and Battery Chashma continued. Tomorrow morning, the road clearance work would be resumed and Kashmir bound tankers and trucks loaded with supplies will be cleared first.

He said highway was cleared for one way traffic from Jawahar Tunnel and Banihal area on Saturday. Some light vehicles were also allowed to move towards Kashmir. Diversion tunnel is being used for emergency movement of vehicles but snow clearance work is still on at north portal of tunnel where huge snow has got accumulated after avalanche three days ago.

Deputy Commissioner Ramban, Showkat Ajaz said that the slides were cleared this afternoon especially from Panthial that is most troublesome spot but as soon as they allowed the tankers from the Banihal a massive slide blocked 200 meters of road at Marog. He said that massive clearance operation is going on and once the slide is cleared the Kashmir bound trucks with essential supplies and tankers will be allowed to proceed. He said around 300 people are stranded in Banihal and Ramban and administration is providing them all possible help.

Divisional Commissioner, Jammu, Sanjeev Verma said that today again the Indian Air Force airlifted 186 stranded passengers including 170 students appearing in GATE at Jammu. He said a score of stranded passengers were also brought from Srinagar by IAF men.

Verma said the Air Force launched special sortie of C17 Globemaster aircraft again today on the request of Administration and airlifted the passengers. On Saturday, also a sortie was carried from Srinagar to Jammu for GATE aspirants from Valley. He said some patients were also airlifted today from Kishtwar area to Jammu on the request of DC Kishtwar.

Verma further said that he has taken review of availability of essential commodities from various DCs and they have told him that they had sufficient winter stocks with them and no report of any shortage from any area like Doda, Ramban, Kishtwar was reported. He said power supply to many areas of Doda and Kishtwar could not be restored as several towers have been damaged and the NHPC men were on the job.

Meanwhile, a weatherman has forecast fresh spell of rain and snow during next week that can lead to further disruptions in air and surface traffic. Director Meteorological

"India has so far bagged only 12 Nobel prizes. Of them, six were those Indians, who had settled in foreign and one was Mother Teresa, which means only five Indians got the Nobel prizes," Malik said, adding this was because of not good quality education.

Eleven persons including four police men, three CRPF men and three civilians were injured in the attack. The injured policemen were identified as Ashiq Ahmed, Abid Ahmed, Muhammad Shafi and Nasir Ahmed while as CRPF men were identified as ASI R Munaswami, constable Vishal and constable Davinder of 132 Battalion.

The injured civilians include Humaira wife of Sajad Ahmed Baba of Harwan, Abdul Qayoom of Mandial Nowshera, Shadab Shah, 20, son of Aftab Ahmad Shah of Nishat and Taliba Gulshan wife of Ifikhar Ahmed of Dalgate, Srinagar.

All the injured were shifted to hospital and their condition is stated to be stable. The area was cordoned off and massive searches were launched but militants had escaped.

Jaish-e-Mohammad (JeM) has claimed responsibility for the attack.

Department, Sonam Lotus, said that there will fresh spell of rains and snow in the State during the coming week. "We are expecting another spell of rain in plains and snowfall over higher reaches of Jammu and Kashmir and parts of Ladakh region from February 13 to 15", he said.

However, he said this spell will of less intensity as earlier one that led to heavy snowfall and rains in the State. He said the rain and fresh snowfall may commence on February 12 late night or February 13 early morning and its intensity may increase further. This will be followed by another spell around February 18 and 19, Lotus said.

This year, the onset of winter in Jammu and Kashmir is ahead of normal time as the region received very heavy snowfall in the first week of November. This was followed by frequent strong Western Disturbances in January and February which led to excess winter precipitation over the State.

Lotus said that most of the weather Models are showing frequent spells of WDs in whole February which means expect more precipitation in coming weeks. Reports from Doda and Kishtwar districts said that people from many far-flung areas like Dassa, Marmat, Bhalessa, Gandoh, Chhatroo, Wadwan, Marwah, Dachhan, Paddar etc have demanded air-drop of ration and other essential supplies in view of heavy snow and closure of scores of link roads. They said there is no hope of opening of these roads even in next 4-5 days, the Govt must ensure essential supplies to them. Entire area has been plunged into darkness and there was shortage of fuel as well.

Sarpanch, Diksha Thakur from Gai, in Dassa area of Doda has said that there was 5-6 feet snow in their area and many villages like Dewalkund, Traman, Bhatta Laloor, Gai, Mallan, Shinkli and Manjmi in Dassa belt were facing shortage of ration, kerosene oil and other essentials. She said public movement has been restricted due to closure of roads and Govt must airdrop essentials to these places. Similar reports have been received from Wadwan, Marwah, Paddar and Bhalessa area.

A shop of Ramzan Mir at Hallaran and another one belonging to Talib Hussain at Nagni in Bhalessa area were collapsed today due to heavy snow. Property worth lakhs has been damaged.

Meanwhile, after heavy snowfall in district Kishtwar, authorities today airlifted critically ill patients and stranded passengers to and fro Jammu and Kishtwar. Deputy Commissioner, Kishtwar Angeez Singh Rana was personally monitoring the operations. He said the District Administration instructed the authorities to airlift critically ill patients in far-flung snowbound areas including Marwah, Warwan, Dachhan and Machail on utmost priority.

Pertinent to mention here that one critically ill patient hailing from Machail and a lady patient from Dachhan were airlifted to District hospital Kishtwar for further Medical treatment besides one cancer patient was also airlifted to Marwah valley.

## Kashmiri politicians habitual of dancing to tunes

## of Pakistan when out of power: Dr Jitendra

Singh accused them of introducing culture of opportunism in politics. "When in power they were privy to anti terror decisions and operations and even some of them demanded bombing of terror camps in Pakistan. But after losing power they did not lose a single minute in toeing the separatist line for the vote bank politics", he added.

The Union Minister However, hastened to say that the present generation of young Kashmiri voters is no longer going to be fooled by such blatant duplicity, the sole aim of which has been to retain power within the dynasty and pass it on from one generation to next.

Dr Jitendra Singh said that the younger generation of Kashmir is fully abreast with the same and it has seen through the tricks of these politicians in past. So they will no longer fall in their trap but vote for strengthening the democracy in the State and work for the larger national interests so that they may not lag behind in progress which the other States of country are marching under the leadership of Prime Minister, Narendra Modi.

He, while ridiculing the statements of PDP and other Kashmir centric leaders demanding separate divisional status for Pir Panjal and Chenab region said that the Kashmir centric leaders are trying to sow the seeds of poison in the minds of people in Doda and Pir Panjal region by such statements.

He said there was never such demand from the districts of Doda and Ramban which are the part and parcel of Jammu region. This politicking by Kashmir centric leaders is being done in view of coming elections and may be they make more poisonous statements in coming days just for vote bank

## Army helps pregnant woman

and zero road accessibility, reached the residence of the lady in no time and carried her on a stretcher for two and a half kilometers on foot in waist-deep snow, they said.

She was then taken to the district hospital, Bandipora, in an Army ambulance, the officials said.

Understanding the need for timely coordination with every minute that counts, the Army

politics, he added. On the Mahagatbandan of opposition parties, Dr Jitendra Singh said this is no gatbandan as all the leaders in the gatbandan are PM aspirants. There is always gatbandan of like minded people and in this case it is a gatbandan against Narendra Modi as they know that they are unable to face him at hustings, he added.

Earlier addressing the function Union Minister paid rich tributes to Ch Chhotu Ram and said that Indian democracy after independence was still under feudalism. He said even after independence people thought that investment should only be made in those institutions which are linked with ruling class.

Dr Jitendra Singh said Ch. Chhotu Ram who was a revolutionary was given the status of Sir by Britishers despite the fact he never compromised with them. But in last 70 years we failed to do anything for him. He never offered Christmas gifts to Britishers as he was an awakened soul, the Minister added.

Dr Jitendra Singh regretted that the party which ruled the country for over 50 years totally neglected the great revolutionaries like Ch Chhotu Ram, Neta Ji Subash Chander Bose, Sardar Patel and Dr B R Ambedkar and it was only the Government led by Narendra Modi which gave due recognition to these great leaders.

He said there was such a dispensation in the country for last over six decades which never thought it better to construct any memorial in the name of these great revolutionary sons of India. The Union Minister also assured contribution for construction of Community Hall on name of Ch Chhotu Ram at Kutra.

He already tied up with civil authorities and arranged for doctors at the hospital, they said.

After a check up, it was conveyed that the lady was pregnant with twins and required a caesarean for which she was further rushed to Srinagar hospital, they added.

According to the officials, the woman safely delivered twin baby girls the same night. (PTI)

## CIRCULAR

## ATTENTION

All Employees of School Education Department, Jammu Division.

Many representations are received in the Directorate of School Education, Jammu regarding problems being faced by employees in the Personnel/Service matters. This is primarily because of lack of authenticated and updated database of the employees. Circular instructions have already been passed to all DDOs for updating the CPIS database of employees working under their control and/or drawing salary from their office. The process of updation is underway. However, each employee of the department in Jammu Division is advised to immediately follow up with his/her DDO to ensure that his/her service particulars are correctly updated both in CPIS as well as the Format "A" & "B" provided to each DDO by the Directorate and send to Email id: [feedbackformschools@gmail.com](mailto:feedbackformschools@gmail.com). This will help the Directorate in resolving Personnel issues of the employees of School Education Department.
