

Met issues pre-alert for bad weather

DEHRADUN, July 2: The weather department today issued a pre-warning of impending inclement weather in parts of Uttarakhand from July 4.

The state government has drawn flak from various sections, including the media, over ignoring such a warning issued by state Met department before the June 15 rain onslaught that wreaked havoc in the state.

Today, Uttarakhand Meteorological department has flashed message to media noting that "This is a pre-warning for your kind information and planning."

The message said there is an indication of increase in rainfall from July 4 onwards specially in Kumaon region and southern parts of Uttarakhand.

The system is being monitored and in case the signals continue to persist, and situation arises, heavy rainfall warning would be issued.

in due course, it said.

The forecast is a cause of worry for the people of Pithoragarh district, where remote Darna, Sikhi, Milam and many other parts were still reeling under the impact of the Mid-June disaster.

The rescue and relief in these parts was already badly affected due to their inaccessibility and inclement weather. There were also reports that these parts were facing acute food shortage.

The inclement weather was bound to have an adverse effect on delivering relief material by choppers in such areas.(UNIT)
