**Bajaj may launch passenger vehicle RE60 before fiscal-end**

HYDERABAD, July 4:

Bajaj Auto, the world's largest three-wheeler maker, expects to launch its four-wheeled passenger carrier RE60 by end of the current financial year.

"The draft gazette notification (for the four-wheeled vehicle) has gone to the law ministry. After the law ministry, it will get published in the government papers. After that comments will be invited from people," RC Maheshwari, president, sales and marketing commercial vehicles, Bajaj Auto told reporters here.

"Till then we cannot launch this product. We hope that between October and March this year. Somewhere between that period we should be able to launch the product RE 60," Maheshwari said.

Bajaj first unveiled the prototype of RE60 at the Auto Expo in New Delhi in January 2012. A quadricycle is low-speed, light-weight four-wheeler, meant for intra-city commutes. As the product does not fit into any of the existing category of vehicles, the government needs to add a new section in the Central Motor Vehicle Rules (CMVR) before the quadricycle can be introduced on Indian roads, Bajaj had earlier said. Replying to a query, he said the company bets big on replacement sales of three-wheelers as it sees huge potential in that category. (PTI)

**OFFICE OF THE EXECUTIVE ENGINEER PHE CITY DIVISION NO.I JAMMU**

**LG aims 10% smartphone market share;to invest Rs 80 cr by 2014**

NEW DELHI, July 4:

Korean electronics major LG, which has been reworking its mobile phone business in the country, today set a target of doubling its market share in the Indian smartphone segment to 10 per cent by the end of next year.

"We were reshaping our mobile phone business. It took us and one and half years to do so. At present our market share is close to 5 per cent in the country which we expect to increase to 10 per cent by end of next year," LG India Managing Director Soon Kwon told reporters here. He was speaking at the launch of the company's new touch screen smartphone with quad-core processor 'LG Optimus G Pro', priced at Rs 42,500 - the highest priced phone from LG's stable for Indian market.

With this launch, the company has entered into the high-end smartphone segment ranging around Rs 40,000, eyeing a slice of the share from competitors like BlackBerry, Samsung, Sony and Apple's iPhone. (PTI)
