

India announces supply of COVID vaccines to 6 countries

NEW DELHI, Jan 19: India on Tuesday announced that it will send COVID-19 vaccines under grant assistance to Bhutan, Maldives, Bangladesh, Nepal, Myanmar and Seychelles from Wednesday and supplies to Sri Lanka, Afghanistan and Mauritius will commence after confirmation of necessary regulatory clearances.

It is learnt that 150,000 doses of Covishield vaccines, manufactured by the Serum Institute of India (SII), will reach Bhutanese capital Thimphu while another consignment of 100,000 doses will be sent to Maldives on Wednesday, and these two countries will be the first ones to receive India's "gift".

"India is deeply honoured to be a long-trusted partner in meeting the healthcare needs of the global community. Supplies of Covid vaccines to several countries will commence tomorrow, and more will follow in the days ahead. #VaccineMaitri," Prime Minister Narendra Modi said on Twitter.

India is one of the world's biggest drugmakers, and an increasing number of countries have already approached it for procuring the coronavirus vaccines.

The Ministry of External Affairs said India will supply COVID-19 vaccines to partner countries over the coming weeks and months in a phased manner, keeping in view the domestic requirements.

In a statement, the MEA said India has received several requests for the supply of Indian-manufactured vaccines from neighbouring and key partner countries.

"In response to these requests, and in keeping with India's stated commitment to use India's vaccine production and delivery capacity to help all of humanity fight the Covid pandemic, supplies under grant assistance to Bhutan, Maldives, Bangladesh, Nepal, Myanmar and Seychelles will begin from January 20," it said.

"In respect of Sri Lanka, Afghanistan and Mauritius, we are awaiting their confirmation of necessary regulatory clearances," it added.

India has already rolled out a massive coronavirus vaccination drive under which two vaccines, Covishield and Covaxin, are being administered to frontline health workers across the country.

While Oxford-AstraZeneca's Covishield is being manufactured by the Serum Institute, and the Covaxin is being produced by Bharat Biotech.

"India fulfils commitment to give vaccines to humanity. Supplies to our neighbours will start on 20th January. The Pharmacy of the World will deliver to overcome the COVID challenge," External Affairs Minister S Jaishankar said on Twitter.

The MEA said it will be ensured that domestic manufacturers will have adequate stocks to meet domestic requirements while supplying abroad.

"Immunisation programme is being implemented in India, as in other countries, in a phased manner to cover the healthcare providers, frontline workers and the most vulnerable," it said.

"Keeping in view the domestic requirements of the phased rollout, India will continue to supply COVID-19 vaccines to partner countries over the coming weeks and months in a phased manner," it added. (PTI)
