Repair street in Udhampur

We have been raising the issue of repair of Ward No. 13 street and again before the concerned authorities but they seem to be apathetic towards it.

The condition has worsened to the extent that people fear using it lest they fall here and receive injuries or a fracture.

The residents urge the District administration Udhampur to get it repaired so that residents do not face any inconvenience in smooth movement. The authorities must resolve the matter at the earliest to the satisfaction of residents.

Issue electricity bills

The PDD authorities are requested to issue Electricity Bills to customers as the same have not been issued to them for the last three months. With the result, the dues pending with customers are accumulating and it would be difficult for them to pay the amount in one go.

It needs to mention here that the Department had earlier streamlined the payment system to the satisfaction of customers, but the same has hit a road block now.

We hope the PDD takes the matter seriously and issue electricity bills.

Repair Sarwal-Paloura road

This is to draw the attention of the concerned authorities in JMC that the road from Sarwal market upto Paloura has got damaged at several places. The potholes on the road are causing great inconvenience to the motorists in having a bump free movement.

These pot-holes turn scary during evening hours or rains, when they get filled. Many untoward incidents have already been reported from this stretch. To avoid further accidents and traffic jams, it is requested to the authorities to get it widened and black-topped.

One does not remember when was the last time it had been repaired.

Maintain Jammu- Reasi Road

Jammu-Reasi road, an important link between Jammu and Reasi needs blacktopping and repair at various places. This road being quite important for Reasi people needs to be maintained on regular basis. The road is witnessing huge traffic day in and day out, but at the same time one witnesses frequent traffic jams on this busy road. There is urgent need of widening this road at various places to allow two way traffic there. Otherwise, it takes lot of time for the vehicles coming in opposite directions to cross each other safely.

Besides, Kerbs need to be constructed at accident prone sites. Also, Signages need to be installed at various places so that the people, tourists visiting the area do not face any inconvenience in locating the destination while travelling to the area.
