

PM cites India's phenomenal growth projection to invite investment in energy sector

BENGALURU, Feb 6:

Prime Minister Narendra Modi with Karnataka Governor TC Gehlot and Chief Minister Basavaraj Bommai at the India Energy Week in Bengaluru.

Prime Minister Narendra Modi on Monday showcased India's phenomenal projected growth in energy demand, stable and decisive leadership, and sustained reforms to invite global investors in the country's oil and gas exploration and new energy, including green hydrogen.

Modi in his inaugural address at India Energy Week 2023 said India is the most opportune place to invest in the energy sector at present.

The country is projected to witness the fastest growth in energy demand in the world in the next decade, the Prime Minister noted.

"I ask you to explore all opportunities connected with

"Multiple factors were behind it like stable and decisive government, sustained reforms, and socio-economic empowerment at the grassroots," he said. He also noted that over 6 lakh km of optical fibre network has been laid to provide internet facilities to the villages. "The number of Broadband users in India has become 13 times more than it was 9 years ago, and the number of internet connections has tripled in the same period," the Prime Minister said.

He said India is working on expanding its refining capacity from 250 MMTPA to 450 MMTPA.

He also informed that India's gas pipeline network will expand to 35,000 km in the next four-five years from 22,000 km presently.

"In 2014, the length of gas pipeline in India was around 14,000 km; now it stands at over 22,000 km. Gas pipeline network in India to reach 35,000 km in the next 4-5 years. The government has reduced the no-go area for oil and gas exploration to 10 lakh square kilometres, which will unlock investment opportunities," Modi said. On 20 per cent ethanol blending with petrol, he said India is moving towards achieving the target.

Modi also showcased the government initiatives on promoting green hydrogen in the country. He said, "Another sector in which India is taking lead in the world is Green Hydrogen. The National Green Hydrogen Mission will give a new direction to India in the 21st century".

The Prime Minister also mentioned the recently unveiled National Hydrogen Mission, saying that it will bring investments worth Rs 8 lakh crore. (PTI)

India's energy sector. India is the most opportune place for investment today," he said at the event, being attended by several ministers, corporate leaders and

experts from different nations. He stated that despite the global crisis, India remained a bright spot for the world in 2022 due to its internal resilience.
