

Angad Creations- A journey of an innovator from engineering to Pashmina developer

JAMMU: The pioneer in Kashmiri embroidered apparel and accessories since 1992, Angad Creations, was started by Jaspreet Singh Bahri with a vision to establish the magnificence of exceptional and versatile Kashmiri handwork in every single home across the nation. The passionate and dedicated team of Angad Creations always succeeded in expanding their wings of creativity and ingenuity to add more marvels to the wide range of Kashmiri embroideries they offer. As a result, their apparels, handicraft, and fashion accessories are always in line with the trending norms and vogue. Jaspreet Singh Bahri had an exciting journey, from witnessing the people's extreme admiration

and love for Kashmiri art to experiencing the hardships of establishing Angad creations as a 'brand' he had dreamt of. However, being in the industry for more than three decades now, the destiny and continual efforts to attain tran-

scedence gave Angad Creations the place it rightfully deserves! Mr. Bahri initially started his academic journey with an engineering course but had to return home soon due to missing crucial documents. His quest for traveling got him into a secluded, in a remote village of Kashmir. His incli-

nation to artisanship made him curious about Kashmiri embroidery, which was prevalent in the village. He observed that the Kashmiri artisans had a knack for developing exclusive art forms with unparalleled attention and

patience. Looking at the fascinating artistry, he couldn't stop himself from spending days understanding more about Kashmiri craftsmanship and an array of embroideries performed by skilled and dexterous patents. This is how an aspiring engineer became a designer and a famous Pashmina manufacturer.
